LabSci 60LV, 60 Liters

LabSci 85LV, 85 Liters

Designed to autoclave everything in your lab, including liquids.

LabSci 60LV and LabSci85LV were developed especially for educational institutions and research facilities. Designed with simplicity and economy in mind.

These vertical floor-standing autoclaves cover the fundamental needs for general lab sterilization with the aim of increasing the **productivity** of your laboratory.

Offering high capacity, together with the **optimization** of resources such as water, power and operating time.

An affordable and reliable solution you can count on for managing your laboratory **workload**.

All of our sterilizers incorporate advanced technological features to provide safe and validated sterilization:

- All liquid capable sterilizers include temp probes preventing boil-over and ensuring proper sterilization
- Customizable cycles (could be saved on the system and not re-entered each time).
- R. PC. R software is available on tabletop LabSci models.
- Vertical LabSci models are Wi-Fi enabled, and include T-Connect - traceability software, for cloud documentation.
